

A TRUSTED ENERGY PARTNER FOR AFRICA

Energy today. A brighter tomorrow.

Connecting global petroleum supply opportunities with Africa's growing energy needs.

TRADING • TRANSPORTATION • STORAGE • DISTRIBUTION

WHO WE ARE

Global energy expertise. African market focus.

Destiny Petroleum is an international petroleum trading and supply-chain company focused on East Africa and Sub-Saharan Africa.

We connect global energy opportunities with African markets through strategic sourcing, trading, transportation, storage and distribution solutions.

Our approach combines experienced professionals, disciplined investment, strategic partnerships and advanced market and risk analysis.

International sourcing

Supply-chain optimization

Commercial discipline

Strategic partnerships

A MESSAGE FROM OUR CEO

Reliable energy connections for Africa's long-term development.

"Africa's economic growth requires reliable, secure and efficient energy supply chains. At Destiny Petroleum, our ambition is to build a trusted energy company capable of connecting international petroleum markets with the evolving needs of African economies. We believe in disciplined growth, strong partnerships, experienced people and intelligent risk management. Our objective is not simply to move petroleum products. Our objective is to create reliable energy connections that support businesses, communities and Africa's long-term development."

MR. ROMY CHRIS — Chief Executive Officer

OUR VISION

To become a trusted energy partner for Africa.

To build a strong international energy company recognized for reliability, operational excellence, responsible growth and long-term partnerships.

- Global connections.
- African opportunities.
- Responsible growth.

OUR MISSION

Connecting global energy opportunities with Africa.

Source	Trading
Logistics	Delivery

Global suppliers → Trading → Transport → Storage → Distribution → African customers

Integrated across the energy supply chain.

From qualified international supply opportunities to regional delivery, we coordinate each stage with commercial discipline and a focus on continuity.

Destiny Petroleum red-and-white tanker trucks, service station and safety personnel in Africa

01 — Petroleum Trading

Strategic sourcing and trading solutions connecting qualified international suppliers with African demand.

02 — Transportation

Reliable logistics solutions designed to move petroleum products efficiently across international and regional corridors.

03 — Storage

Strategic access to petroleum storage infrastructure through qualified infrastructure and logistics partners.

04 — Distribution

Efficient petroleum distribution solutions serving commercial, industrial and institutional customers.

Global connections. African opportunities.

Our international network provides access to global trading, sourcing, logistics and financial ecosystems. Locations shown represent strategic connections and potential partner networks—not claims of owned offices.

AFRICA STRATEGY

Africa is at the heart of our strategy.

We evaluate each market individually based on demand, infrastructure, regulation, competition, logistics, economic conditions and country risk.

East and Sub-Saharan African target markets

MARKET INTELLIGENCE

Intelligence before action.

Energy markets are dynamic. Destiny Petroleum applies structured market intelligence and risk assessment to support disciplined commercial decisions.
